

REMARKS

Applicants appreciate the Examiner's allowance of the present application. Applicants are filing a RCE herewith to have this amendment and the attached IDS entered.

Applicants are amending Claims 46, 47, 52, 56, 58, 59, and 61 to recite the features of "a source wiring and a drain wiring electrically connected to the first thin film transistor" and "wherein the pixel electrode overlaps with the source wiring and the drain wiring." These features are supported by, for example, Fig. 9B in the present application. Applicants are also amending some of the claims to correct informalities therein. Applicants are canceling Claim 129, without prejudice or disclaimer.

It is respectfully submitted that the present application is in a condition for allowance and should be allowed.

If any further fee should be due for this amendment, the RCE, and/or the IDS, please charge our deposit account 50/1039.

Favorable consideration is earnestly solicited.

Date: June 30, 2009

Respectfully submitted,

/Mark J. Murphy/
